Thank You

Family & Friends: Thank you for supporting me not only during the tough times, but for also being there during the good times.

Studio Members: Whether past or present, thank you for supporting me not only in learning more about the trombone, but helping me in other aspects such as last minute requests and other classes. I wouldn't be the same musician without learning from all of you.

Dr. Williams: Thank you for pushing me to be better all the way up until it is my time to leave, and not only pushing me to be a better trombonist, but to be a better overall musician and educator.

Natia: Thank you for taking your time to collaborate with me several times throughout my time at UNI, and provide helpful insight about the music in rehearsals that help the performance.

Techs: Thank you for spending time on a Monday night helping the logistics of this recital.
