

I automatically schedule the audio recording of all recitals and concerts presented by the School of Music each semester in Russell Hall or the GBPAC. In addition, all School of Music concerts presented in Bengtson Auditorium, Davis Hall or the Great Hall are live streamed.

If your recital date or time has been changed from the original schedule, it might be good to see if I was informed about the change. You may check with me beforehand to find out who is assigned to record your recital.

If you need audio services other than an audio recording of your recital, be sure to notify me well in advance of the recital.

Thanks,

Tom Barry
